

Leslie Terra

My education includes a bachelor's degree in art (ceramics emphasis) and a bachelor's in landscape architecture. I've worked as a chemist, a ceramic artist, and a landscape architect. For several years I detoured from my artwork to design and build two houses (one solar and one timber frame design) and to renovate two more houses and landscapes.

As a painter, I've used watercolor, wax oil pastel, oil pastel, and acrylics with embedded papers. A few themes and expressions are persistent in my artwork. Colorful plants and other beautiful forms in nature are usually my subjects. Humor and whimsy, once part of my ceramic artistic expression, are resurfacing in my acrylic paintings.

EXHIBITION RESUME

I have shown paintings in the following:

- Glass Chameleon Gallery, Bend, Oregon
- Audubon Society Art Show, Portland, Oregon
- Blackwell Brothers Gallery, McMinnville, Oregon
- Frank Philipps Pottery Gallery, Ashland, Oregon
- "Members Only" exhibit at The Gallery at the Airport, Eugene, Oregon
